

# Tech Executive Leadership Initiative

Syllabus January - April 2021

# Winter 2021 Syllabus

The Tech Executive Leadership Initiative (TELI) is a 10-week skills-building initiative to prepare experienced technology leaders to engage effectively with public sector challenges. TELI provides senior technology professionals with a unique leadership opportunity to strengthen their executive skills through real-world engagement with government problems. Through experiential learning with real government technology policy challenges, leaders hone their skills to work effectively with dedicated public servants and mitigate risk on technology projects.

#### **Course Format and Procedures**

Duration: 10 weeks, part-time from January 23 to April 1, 2021

Location: Remote via Zoom

**Meetings and time commitment:** 

- Weekend Immersion: January 23 and 24, 8am PT-3pm PT/11am-6pm ET
- Evening Weekly Session: Tuesdays from 4pm-5:30pm PT/7pm-8:30pm ET from January 26 to March 30
- **Programming Tracks** (you will be asked to pick one track; 4 weeks in total):
  - Policy Track: Wednesdays from 4pm-5:30pm PT/7pm-8:30pm ET from January 27 to February 17
  - Technology Track: Thursdays from 4pm-5:30pm PT/7pm-8:30pm ET from January
     28 to February 18
- Project Team Meetings: Thursdays from February 25 to April 1 from 4pm-5:30pm PT/7pm-8:30pm ET

**Instructors:** Betsy Cooper and invited guest speakers

Partner Organizations: Aspen Tech Policy Hub and Tech Talent Project

#### Goals

Through this program, we hope that TELI leaders will learn to:

- Understand how government structures differ from industry
- Lead and manage stakeholders, peers, and direct reports without formal authority in high risk, highly political contexts
- Design, research, analyze, and execute policies in ambiguous, complex, and fast-paced environments
- Drive projects to successful delivery within entrenched bureaucracies and under-resourced partners with limited financial tools
- Communicate effectively via concise, accurate, accessible, and timely written materials
- Operationalize ethical, fiduciary, and legal responsibility to the American people
- Build a healthy culture of collaboration, learning, risk creation, direct feedback, and leadership development for public servants

#### **Course Overview and Schedule**

The TELI course is divided into two segments: (1) a four-week policy bootcamp that teaches leaders the basics of government service, including a choice of two tracks (one on policymaking and one on government technology); and (2) a final project where TELI leaders put their lessons to work on a policy challenge on teams with a client organization. During the last six weeks of the program, one of the two class sessions a week will allow leaders to work with their teams on their challenge project.

See below for a tentative course overview and schedule. We note that the course schedule below is tentative and subject to change. We will plan to update this syllabus weekly as we confirm speakers and readings.

We note that most of the readings for the program will be provided for you in digital format. There are a few *optional* readings that require you purchase a book. These books include:

- Eugene Bardach, <u>A Practical Guide for Policy Analysis: The Eightfold Path for More Effective</u>
   Problem Solving
- Cyd Harrell, A Civic Technologist's Practice Guide
- Sarah Hudson and Hana Schank, The Government Fix
- Andrew Pennock, <u>The CQ Press Writing Guide for Public Policy</u>
- Nicole Tisdale, <u>A Right to Petition. A Practical Guide to Creating Change in Government with</u> Political Advocacy Tools and Tips
